

Press Release

Ebm-papst copy for H&V News manufacturing feature

ebm-papst UK operations director Ray Ladyman said: “As well as providing industry with ready-made HVAC solutions, we are able to outsource our research, development and manufacturing prowess to clients looking for an innovative product fix – whatever the problem.

“Our ISO 9001 certified facilities include on-site sheet metal machinery – opened last year and employing the newest and best technologies in sheet metal fabrication, moulding and fastening – as well as an airflow measurement facility and cutting-edge computer modelling equipment. Meanwhile, our mechanical and electronic design engineers boast a wealth of experience, including backgrounds in aerospace, defence, telecoms and motorsport.

“Whether clients need a specific lead or connector for an ebm-papst product, bespoke electro-mechanical sub-assemblies, cables and harnesses, or the expertise to generate a bespoke HVAC product, our Chelmsford headquarters has the best engineers and equipment to help.”

ebm-papst UK is the domestic arm of ebm-papst Group, Europe’s leading manufacturer of fans and motors and is a pacesetter for the ultra-efficient EC technology.

ebm-papst Group employs over 11,000 people at 17 production facilities (including Germany, China and the USA) and 57 sales locations worldwide. ebm-papst is represented in many industries, including ventilation, air-conditioning and refrigeration technology, household appliances, heating engineering, IT/telecommunications and industrial engineering.
