

Press Release

Vote for ebm-papst in Data Centre Project Awards

ebm-papst UK Ltd are pleased to announce that they are confirmed finalists for two of the Data Centre DCS 2017 Project Awards.

ebm-papst were nominated for the both the, **Data Centre Energy Efficiency Project of the Year and the Data Centre Consolidation/Upgrade/Refresh Project of the Year.** The project awards pay particular attention to the driving forces behind the projects and the challenges which needed to be addressed.

The selection of winners is based solely on the public votes received, therefore we would like to invite the public to vote for ebm-papst UK Ltd.

Voting is now open, so you are invited to submit your choices. However, some rules do apply:

1. You can make only one vote per award category.
2. Votes will only be accepted from a current business email address.
3. Votes from third party email providers (hotmail, yahoo, etc) will NOT be counted.
4. A nominated company or supplier cannot vote for themselves or their nominee, any such votes will NOT be counted.

Voting is now open, we would like to invite you to [vote for ebm-papst here.](#)

Voting closes at 17:30 on 28th April 2017, winners will be announced at a gala evening at the Grange, St Paul's hotel in central London on 18 May 2017.

About ebm-papst

The ebm-papst Group is the world's leading manufacturer of fans and motors. Since its foundation, the technology company has continuously set global market standards. Developments have ranged from electronically controlled EC fans, through aerodynamic improvements of fan blades, and on to the resource-conserving selection of materials, with sustainable materials being just one option.

In fiscal year 2015/16, the company achieved sales of almost €1.7 billion. ebm-papst employs approximately 13,000 people at 25 production sites (in Germany, China, the United States and elsewhere) and in 49 sales offices worldwide. Fans and motors from the global market leader can be found in many industries, including ventilation, air conditioning and refrigeration, household appliances, heating, automobiles and drive engineering.
